

# Group info

Name + Last name, preferred name, NSEW role, [MBTI](#) role, Personal strengths + personal areas of growth, Interesting fact or identifying sentence, Github user, Avatar (e.g. may be the one you have on your Github profile, or customized e.g. with Bitmoji or Avatar Maker)

Gadea Domínguez, you can call me Gadea, North East, Architect INTJ-A. I'm generally good at organizing myself but I tend to impose my opinions, and I get stressed easily when people don't work. Github user: gadeadom, avatar: white bunny plushie face.

Helio Vega Fernández, I prefer you to call me Helio, North East, INTP. I'm good at learning and doing things correctly and I know how to listen, but I tend to do the task at the last minute. "In a coat of gold or coat of red I lion still has claws". My Github user is helvega. Avatar:

Miguel Ángel Trejo, you can call me either Miguel Ángel or Trejo (Trejo's better, but Miguel Ángel's fine too), East West, ISTP-T. I like to hear everyone's points of view to see which way of carrying out the task at hand is the best or most efficient. But this also means that I won't start working until we have a concrete plan which I agree with. Also I refuse to work with AI unless strictly necessary. "God gives out his worst comedies to his best clowns". Git: Matrejo. Avatar:

Pablo Cabello Canales, Pablo, South, INFP-T, I always try to listen to everyone's ideas and help everyone understand each other, but I tend to procrastinate and sometimes I lack initiative and I need someone to tell me what to do next, GitHub user: PCabello5

GitHub avatar:

Hana Perocevic, Hana, , ESTP, GITHUB: hp6506@g.rit.edu
